

Apple Blossom (trad. fiddle w/added chord subs and lyrics)

*lyrics by Ben McClelland
chords by Ben McClelland*

(Verse 1)

In this moment, time stands still,
As you waltz your way through the daisy hills,
My fiddle plays a tune so true,
And I'm lost, I'm lost in the depths of you.

Underneath that apple tree,
Where the bee stings, she sings, our sweet melody,
In the warmth of golden suns
Our dreams have just begun
Pick an apple blossom and put it in your hair.

(Chorus)

Pick an apple blossom
Pick an apple blossom
Pick an apple blossom
And put it in your hair

(Verse 2)

With every step, our love does grow,
Like a child grows, the seeds blow, as a river gently flows,
Oh, darlin', won't you take my hand,
We'll waltz across, dance across this velvet land,
your eyes are so rich and bright, I breathe from your light
Pick an apple blossom and put it in your hair,

(Verse 3)

let's keep dancing through the night,
Underneath the canopies of love and the starry lights,
While your laughter fills the air,
(and an) Apple blossoms, apple blossoms falling from your hair
With you by my side, I got no cares,
Pick an apple blossom and put it in your hair.
