(intro)

Desire, desire.....

(v. 1)

In the shadows where I dwell
With secrets I won't tell
I move with the moonlight
Casting my spell

Deep in the night
With a heart so dark
I'll steal your love by candlelight
With a gentleman's touch
And a thief's desire

(chorus)

Gentleman Amour I'll steal your heart for sure
With every kiss I open up the door
My amour you know what love is for
(I'll) have you feeling things you've never felt before

(v. 2)

A wild horse waiting to be tamed
With velvet reins, I call your name
(I'll) ride through your heart and ignite the fire

In the moonlight our passion untamed,
Our wild hearts break the chains,
Ride through my soul with fierce desire
