When you love me girl oh I I I  
When u kiss me girl I get hi hi hi

You make my soul feel free  
Girl u lessen me  
I'm closer now to u then than I'll ever be

Less of the weight I hold  
Less of my fearful soul  
I'm breaking down  
Fallin apart to peace

I used to stand alone  
Walk in the sand and stone  
Voices in my head were me always only me

Used to fight to keep my throne  
But your touch made the silence grow  
Now I move softer and I know  
I was just me and I was weak
